MPharm, PhD
University of Malaya,
Malaysia

Joseph Tucker
MD, PhD, AM
UNC Chapel Hill,
United States

ABOUT THE FELLOWSHIP PROGRAM

The purpose of the APACC Fellows program is to provide early career investigators with an opportunity to learn about HIV and co-infection research, conference development and leadership through serving on the Organizing Committee of APACC. Fellows will help to develop conference session content for other early career investigators and promote APACC over a two-year term.

The Organizing Committee is responsible for developing the conference program, driving conference engagement, and selecting abstracts and session topics. Fellows will receive support to attend the conference each of the two years in which they participate.

DETAILS

Fellows will be responsible for participating in planning conference calls of the Organizing Committee, helping to organize capacity-building sessions, attending APACC, and promoting the APACC conference and sessions before and during the conference.

Chelsea and Westminster
Hospital, United Kingdom

Jürgen Rockstroh, MD
University of Bonn, Germany

Annette Sohn, MD
TREAT Asia/amfAR,
Thailand

APPLICATION AND DEADLINES

Applicants should submit the below information **in English** by **16 December 2022, 23:59 Singapore time**. They will be notified about the Fellow selection decisions by early February 2023.

The following must be submitted:

- 1) A personal statement describing what would be the applicant's goals as a member of the Organizing Committee and how they could contribute to APACC (<500 words);
- 2) A letter of support from a mentor, department chair, or supervisor to describe the applicant's current scope of work, confirm eligibility to apply (per the above criteria), and comment on the candidate's suitability for the fellowship program;
- 3) A current CV.

All application documents must be in English and should be submitted as electronic files to Yee Ning Tham (yeening.tham@amededu.com). Review criteria for selecting Fellows include clinical and/or research experience with HIV and co-infections in the Asia-Pacific region and prior experience actively participating in research conferences (e.g., presenting at local or international meetings).

ELIGIBILITY REQUIREMENTS

- 1) Early career investigator, as defined by: a medical degree (MD, MBBS) or PhD in a health-related field in the past ten years (if in an academic institution, holding a position up to the level of Assistant Professor, or comparable title);
- 2) Living in one of the below eligible countries*;
- 3) Submission of a complete application by the deadline;
- 4) Commitment to participate in and implement program activities.

Eligible countries*:

American Samoa, Australia, Bangladesh, Bhutan, Brunei Darussalam, Cambodia, China (including Hong Kong SAR, Macao SAR), Commonwealth of the Northern Mariana Islands, Cook Islands, Democratic People's Republic of Korea, Federated States of Micronesia, Fiji, French Polynesia, Guam, Hong Kong, India, Indonesia, Japan, Kiribati, Lao People's Democratic Republic, Macao, Malaysia, Maldives, Marshall Islands, Mongolia, Myanmar, Nauru, Nepal, New Caledonia, New Zealand, Niue, Palau, Papua New Guinea, Philippines, Pitcairn Island, Republic of Korea, Samoa, Singapore, Solomon Islands, Sri Lanka, Taiwan, Thailand, Timor-Leste, Tokelau, Tonga, Tuvalu, Vanuatu, Vietnam, Wallis and Futuna
